\* Details given in the supplied Rajasthan Main Database under column N,O,P,Q &R are not updated.

For example, works under scheme code 19 in Division code 568 (Udaipur North) have been completed but the supplied data shows NIL score under proposed v/s actual number of saplings & species.

Current Gram Sabha representatives may not be essentially aware of the plantations done during the previous Panchayat; the relevant documents are mostly unavailable with the current Panchayat / Gram Sabha representatives, therefore they are mostly unable to provide the desired details in the true sense.

Actual updated data is possible to be procured from certain forest division offices. That will help better (actual) ground truthing.

Range code 1121 site has been visited under case study.
